How is it possible, that the state with the worst driving record in the NATION will not allow Uber to exist? This is an abomination. Do the right thing and allow Uber to operate in South Carolina.

Standing up for my right to ride,

Monica Fike

Subject: Uber

As a SC native, I was saddened to read about to cease and desist ruling for Uber cab in SC. It seems to me that regulations have gotten out of hand to the point that it prevents the free market from operating at the level to enable the maximum benefit of both producers and consumers. This isn't about laws or insurance regulation, its about money to government agencies.

There are many benefits to enabling ride share services in metropolitan cities. Not only does it help the economy but cities that utilize the Uber and Lyft cab services have seen a significant drop in drunk driving arrests and fatalities.

I ask the state officials of SC to reconsider this ruling. As a taxpayer who lives in SC and has considered being a part time driver with Uber, my hope is that you will look into allowing this service to be enabled for the benefit of the people and the betterment of the economy as a whole.

Will

Hello,

I'm requesting that you please reconsider the actions that took place yesterday suspending Uber activity in SC. I actually purchased a "new" used car yesterday with the intentions of using this vehicle as means to establish a second income by driving for Uber. With only one very untimely taxi company in Greenville, SC the option for rides is monopolized. I can't understand why so many states offer this excellent opportunity for the consumer and employment and SC cannot.

Thanks for your time,

Matthew Foley

This email is in support of Uber and imploring that the PSC drop its case against the Uber company as I and many others like me that use the Uber ride service for reliable transportation to and from my school and job would be extremely hurt if the state allows the PSC to bully the Uber service out of our state.

Please do not allow this to happen. Many of the states citizens need and rely on the Uber service. It would be terrible to see the state to allow such a wonderful new company and service to not be allowed to operate which has higher standards, reliability and trust than using certain outdated, under qualified taxi services.

South Carolina NEEDS Uber.

Sir,

It's incredibly hard to get a cab ride unless you're near a major City. Often times they're very late or don't show up at all.

Uber is here to stay, wether you like it or not. I suggest you stop wasting taxpayer money challenging it. How do I know? It's a basic lesson in supply in demand.

Thank you,
Julian
